Integrate Tasks on Homework Platforms

- ▶ Set tasks to Google Classroom, Microsoft Teams, ShowMyHomework/Satchel:One.

How schools use us?

Independent Revision

- ▶ Access to test questions in addition to revision questions.
- ▶ NEW: **Artificial Intelligence** functionality to suggest activities to students.
- ▶ NEW: **Mobile responsive** student player providing excellent experience on any electronic device.
- ▶ The option to log in **24 hours a day, 7 days a week.**

Homework

- ▶ **GCSE 2022 tag** appears only on relevant activities allowing teachers to easily set targeted topics.
- ▶ Every task includes **Question Level Analysis** that is reported to teachers to identify gaps in students knowledge - helps teachers to plan next lessons.
- ▶ **Marking is completed for teachers** and reports are automatically produced, significantly reducing workload.

Personalised Learning

- ▶ **Teachers can create intervention groups** to target specific students.
- ▶ **Edit activities** to differentiate for your students.
- ▶ Diagnostic Activities
 - ▶ To identify gaps in student knowledge.
 - ▶ Teachers can target teaching to those gaps - and then assign students a follow-up diagnostic.

Intervention

Our Three-wave Intervention framework allows teachers to target whole-school, class, intervention group and individual students.

Wave 1 – Classroom Differentiation

Teachers can set work to a whole class or small groups from that class.

Wave 2 – School Intervention

Create intervention groups to meet your school's needs.

Wave 3 – Individual Students

Set tasks to off-campus students - including excluded, B-Code and hard-to-reach students.

Independently Proven-to-Improve Grades

Independent studies commissioned by the Education Endowment Foundation and conducted by the Family Fisher Trust from 2002 to 2020 continue to report SAM Learning significantly improves students GCSE grades with as little as 10+ hours of usage.

Area	All Pupils	Disadvantaged Pupils
SAM Learning pupils	1 GCSE grade better in 2.0 subjects	1 GCSE grade better in 3.5 subjects
Equivalent P8 gain	+0.20	+0.35
